Arts in Harmony 2009 - the largest national juried art show in Minnesota is sponsored for the 14th year by the Arts Alliance of Elk River.

The Arts Alliance is an association of many artists - painters, sculptors, actors and musicians, authors and storytellers - as well as people who enjoy having the chance to experience art close to home. If you like art in any of its forms, you can find a role to play with the Arts Alliance.

Our 2008-2009 Performance Series just ended on Friday, February 13, with two performances of *Harriet Tubman and the Underground Railroad* by Theatre IV who came to us from Richmond Virginia. It was a wonderful telling of the story of one of the important people in this country's journey away from slavery.

This summer on June 20 & 21, the ArtSoup Festival returns to downtown Elk River and Rivers Edge Park, with many artists and performers from all around the region showing and offering their work for sale. Among others we hope to be able to hear the harmonic tones of the Barbershop Chorale and the Minnetonka Clippers on the Great River Energy Stage overlooking the Mississippi River.

We are now starting our second year at the Arts Alliance Main Street Gallery. Check it out at 716 Main Street every month or so when there will be a new exhibit to view. You can also take one of the many classes we have started offering taught by working artists and experienced instructors. Gallery hours are Thursday, Friday and Saturday, Noon to 6 P.M.

More info on all of this and tickets for performances can be found on our website. Join us and be part of the excitement as we grow and continue to make art available to everyone in the area.

Jurors Statements

Bob Toensing:

Successful works of art; regardless of their style, media, or subject matter, speak to the observer. This visual message is conveyed on a cerebral and/or visceral level. All the participants and the award winners in this year's Arts in Harmony exhibit convey that visual power. As teachers and jurors, we approach these visual images with a critical eye. We thoughtfully considered our selections as individual artists, but agreed unanimously on our decisions. I hope this exhibit moves the viewer.

Lance Kiland:

It was a challenge to juror this year's Arts in Harmony Exhibition. There were quite a few exceptional pieces to choose from and this, of course, makes the process difficult for me as a fellow artist. Most of the work we looked was rich in color and mature in its complexity, so selecting the best pieces for inclusion and for awards came down to intent and finally the impact of the work itself. For me, a successful artwork has a mystery beyond what even the artist intended, the work holds your eye and communicates the essence of life. My best heart felt congratulations to everyone involved in this wonderful exhibition.
